Somnoware

Your sleep study has been reviewed by a physician. An order for CPAP has been placed.

Streamline diagnostic testing workflows & drive greater patient therapy adherence

Somnoware's platform as a service solution lets you diagnose & manage patients the way you want. Use any major testing device. Unify PAP data in one secure platform. Automate patient engagement. Customize dashboards and reports. Everything you want all in one platform.

Somnoware Diagnostics

Features

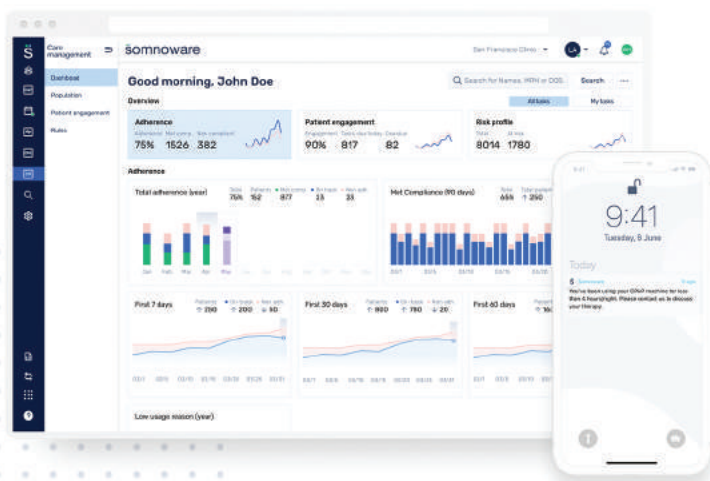

- HST/AST rich scheduler
- EMR & testing device integration
- Customizable eForms/questionnaires
- Device inventory management
- Automatic report generation
- Remote scoring

Benefits

- Manage screening, scheduling & device inventory
- Reduce manual data entry
- Customize reporting templates
- Diagnose & manage patients anywhere
- Generate & eSign DME orders with one click
- Eliminate printing, scanning & faxing
- Secure data (SOC 2 + FedRAMP)

Somnoware Care Management

Features

- Unified datasets from PAP devices in one platform
- Population management dashboards
- Non compliant patient identification
- Custom rules engine
- Automated patient engagement

Benefits

- Rapidly create treatment & intervention plans
- Configure features based on your workflow
- Lower administrative overhead
- Customize reports & dashboards
- Optimize treatment outcomes

One interface for all your diagnostic needs.
